Induction and preparing for working on the wards

Essential training in key competencies which will teach new skills, increase confidence of students and staff to improve patient satisfaction and quality of care.

Module title	Primary/Secondary care	Profession
Basic life support	All	All
Child protection: physical abuse	All	All
Child protection: emotional abuse, sexual abuse, and neglect	All	All

Priority clinical conditions

Cover recognition, assessment and management of common, high-priority clinical areas for hospitals and educate your students or healthcare team on dealing with these increasingly complex and costly demands.

Module title	Primary/Secondary care	Profession
Advanced life support for in-hospital adult cardiac arrest	Secondary care	Dr
Step by step: how to diagnose pulmonary embolism	Primary care	Dr
Challenges in hospital care: pressure ulcers	Secondary care	All
Reducing the risk of hyponatraemia when administering intravenous fluids to children	Secondary care	All

Upper gastrointestinal bleeding: acute assessment and treatment of non-variceal bleeds	Secondary care	Dr
Hyponatraemia	All	Dr
Challenges in hospital care: Sepsis - recognition and management in adults	Secondary care	All
Challenges in hospital care: Sepsis - recognition and management in children	Secondary care	All
Hospital presentations: anaphylaxis	Secondary care	Dr
Ask an expert: deep vein thrombosis	Primary care	All
Ask an expert: Peripheral vascular disease	Primary care	Dr
Step by step: transient ischaemic attack and ischaemic stroke - secondary prevention	Primary care	Dr
Step by step: a guide to managing heart failure in primary care	Primary care	Dr
Clinical pointers: melanoma	Primary care	Dr
Rosacea: a guide to diagnosis and treatment	Primary care	Dr
Step by step: Prescribing emollients and topical corticosteroids for eczema and other dry inflammatory skin conditions	Primary care	All
Quick quiz: Acute itchy rash	Primary care	All
Step by step: preventing diabetes in high risk patients	Primary care	All

Step by step: how to diagnose and manage type 1 diabetes in adults in primary care	Primary care	All
Clinical pointers: Blood glucose control in type 2 diabetes	Primary care	All
Ask an expert: Hay fever and perennial allergic rhinitis	Primary care	All
Guideline focus: coeliac disease (NICE)	Primary care	Dr
Ask an expert: Lower gastrointestinal symptoms	Primary care	Dr
Ask an expert: alcohol related liver disease	Primary care	Dr
Guideline focus: irritable bowel syndrome in adults (NICE)	Primary care	Dr
Measles: diagnosis and management	Primary care	All
Clinical pointers: Managing osteoarthritis in primary care	Primary care	All
Ask an expert: fibromyalgia	Primary care	Dr
Guideline focus: low back pain and sciatica (NICE)	Primary care	Dr
Ask an expert: Shoulder pain	Primary care	Dr
Clinical pointers: Osteoporosis - prevention and management in primary care	Primary care	Dr
Ask an expert: Polymyalgia rheumatica	Primary care	Dr
Guideline focus: multiple sclerosis (NICE)	Primary care	Dr
Epilepsy: diagnosis and management in primary care	Primary care	All

Step by step: managing migraine in primary care	Primary care	Dr
Parkinson's disease: initial assessment and referral	Primary care	Dr
Palliative care during the out of hours period: in association with Macmillan Cancer Support	Primary care	All
Eyelid disorders: diagnosis and management	All	All
Ask an expert: Urinary tract infection in infants and children	Primary care	All
Guideline focus: bronchiolitis in children (NICE)	Primary care	Dr
Guideline focus: gastro-oesophageal reflux disease in infants, children, and young people (NICE)	Primary care	Dr
Guideline focus: psychosis and schizophrenia (NICE)	Primary care	Dr
Generalised anxiety disorder: diagnosis and management in adults in primary care	Primary care	Dr
Clinical pointers: Perinatal mental illness	Primary care	All
Acute kidney injury: diagnosis and management in primary care	Primary care	Dr
SxS: Investigating non-visible haematuria in primary care	Primary care	Dr
Community acquired pneumonia: diagnosis and management	Secondary care	Dr
Managing acute exacerbations of COPD in primary care	Primary care	Dr
Guideline focus: asthma diagnosis in adults and children (BTS/SIGN)	Primary care	All

Managing chronic asthma in adults in primary care	Primary care	All
Ask an expert: Management of chronic asthma in children in primary care	Primary care	All
Primary care symptoms: Chronic cough in an adult	Primary care	Dr
Hospital presentations: hypothermia	Secondary care	Dr
Hospital presentations: jaundice	Secondary care	Dr
Hospital presentations: poisoning	Secondary care	Dr
Hospital presentations: bruising and spontaneous bleeding	Secondary care	Dr
Ask the consultant: Diabetes	Secondary care	Dr
Hospital presentations: swallowing difficulties	Secondary care	Dr
Hospital presentations: unconscious patient	Secondary care	Dr
Hospital presentations: Delirium	Secondary care	Dr
Hospital presentations: falls	Secondary care	Dr
Hospital presentations: Aggressive or disturbed behaviour	Secondary care	Dr
Hospital presentations: blackouts and collapse	Secondary care	Dr
Hospital presentations: palpitations	Secondary care	Dr
Hospital presentations: shock	Secondary care	Dr
Hospital presentations: alcohol and substance dependence	Secondary care	Dr

Hospital presentations: Genital discharge and ulceration	All	All
Hospital presentations: loin pain	Secondary care	Dr
Hospital presentations: palliative and end of life care	All	All
Hospital presentations: dyspepsia	Secondary care	Dr
Hospital presentations: acute kidney injury and chronic kidney disease	Secondary care	Dr
Hospital presentations: cough in adults	Secondary care	Dr
Hospital presentations: Nausea and vomiting	All	Dr
Hospital presentations: joint swelling	Secondary care	Dr
Ask the consultant: Palliative care medicine	Secondary care	Dr
Hospital presentations: suicidal ideation and self harm	Secondary care	Dr
Step by step: assessment and initial management of pelvic inflammatory disease (PID) in primary care	Primary care	Dr
Contraception in young people under the age of 18	Primary care	All
Clinical pointers: managing the menopause	Primary care	Dr
Contraception in the perimenopause	Primary care	All
Breast lumps and lesions: assessment and management in primary care	Primary care	Dr

Interpreting tests

Educate your students or healthcare team using a mixture of 3D animation, audio, images, text and clinical cases with practical tips on how to conduct, interpret and record key tests.

Module title	Primary/Secondary care	Profession
Arterial blood gases: a guide to interpretation	Secondary care	Dr
Step by step: investigating the asymptomatic patient with abnormal liver function tests (LFTs)	All	Dr

Safer prescribing

Reduce risks and support consistent prescribing by offering practical approaches to avoiding errors and working safely and effectively.

Module title	Primary/Secondary care	Profession
Fluid management in acutely ill patients	Secondary care	Dr
Injectable medicines: prescribing, preparing, and administering	All	All
Safe prescribing in patients with kidney impairment	Secondary care	Dr
Maintaining patients on oral anticoagulants: how to do it	Secondary care	Dr
Starting patients on anticoagulants in secondary care: how to do it	Secondary care	Dr

Examination and practical skills

Provide 3D animations and images to show how to perform practical procedures, detailing the relevant anatomy and giving tips to ensure that they are performed safely and effectively.

Module title	Primary/Secondary care	Profession
Hip examination	All	All
Ankle examination	All	All
Elbow examination	All	All
Wrist examination	All	All
Shoulder examination and diagnosis	All	All
Back examination: low back pain and sciatica	Primary care	Dr
Knee examination	All	All
Quick neurological exam for primary care	Primary care	Dr
The prostate: clinical examination	All	All
Basic practical skills: practical suturing techniques	All	All
Advanced practical skills: central venous catheter insertion (right internal jugular vein)	Secondary care	Dr
Basic practical skills: how to perform an ECG	All	All

Advanced practical skills: femoral artery puncture	Secondary care	Dr
Basic practical skills: male urethral catheterisation	All	All
Advanced practical skills: needle decompression of tension pneumothorax	Secondary care	Dr
Advanced practical skills: insertion of intercostal drain: open technique	Secondary care	Dr
Advanced practical skills: insertion of intercostal drain: Seldinger technique	Secondary care	Dr
Basic practical skills: venepuncture and phlebotomy	All	All
Practical skills: Pocket mask ventilation	All	All
Airways management: bag-valve-mask ventilation	All	All
Airways management: oropharyngeal airway	All	All
Airways management: laryngeal mask airway	All	All
Airways management: tracheal intubation	All	All
Basic practical skills: peripheral intravenous cannulation	All	All
Basic practical skills: peak flow measurement	All	All
Basic practical skills: female urethral catheterisation	All	All
Advanced practical skills: diagnostic lumbar puncture in adults	Secondary care	Dr
Airways management: nasopharyngeal airway	All	All
Basic practical skills: nasogastric tube insertion	All	All
Advanced practical skills: radial artery puncture	Secondary care	Dr

With almost 700,000 users worldwide, BMJ Learning has worked closely with medical students and healthcare professionals to produce high-quality, evidence-based, popular learning resources since 2003.

We are proud to work in partnership with hospitals, medical associations and medical schools worldwide, supporting their multidisciplinary teams with the evidence-based guidance they need to advance the effectiveness of patient care.

Subscribe today to improve the knowledge in critical areas for your students or healthcare team.
